**History** **DESIGNER & WEB INTEGRATOR, Radialpoint (March 2011–June 2011)**

Designed UI mockups for company software and for clients. Coded JavaScript & ActiveX based scripts deployed to thousands of live PCs for the purpose of security alerts, notifications, updates, etc. Designed and coded various web pages for clients. Assisted in designing collateral for presentations and internal communications.

**CREATIVE & WEB PRODUCER, Radialpoint (April 2006–January 2009)**

Corporate website design and development, including an administrative backend in PHP and MySQL. Spearheaded the interface design and coding (HTML/CSS/JavaScript) for a white-label application to manage software/services installed on a PC, which has evolved into the core of Radialpoint's software offerings. Designed Icons for services in PC security suite.

**FREELANCE DESIGN & DEVELOPMENT, Self (Jan 2004–Present)**

Constantly improving skills through various paid and non-paid projects. See my online portfolio for examples: [hami.sh/work/](http://hami.sh/work/)

**Volunteer** **FULL-TIME MISSIONARY, LDS Church (Feb 2009–Feb 2011)**

Spent two years as a missionary in Sacramento, California. Served the people of the communities where I was assigned and taught any who were interested about the LDS faith. Assigned as a leader to oversee and train groups of 10-15 missionaries. Also served in the mission's administrative office as a technology specialist and assistant to the mission president.

**BRANCH CLERK, LDS Church (March 2011–July 2011)**

Managed finances, donations, and membership records for local congregation.

**Education** **HOME EDUCATED, High School Level Complete (2007)**

Was homeschooled through the high school level, including some college level courses, before shifting to work full-time.
